عوام دوست پارٹی

Political Pragmatism in Pakistan

"The Interest and Welfare of the People of Pakistan — First, Always, Without Compromise"

PREAMBLE

Pakistan is a sovereign state, and the people of Pakistan are the reason for its existence. The Awam Dost Party therefore holds a single, non-negotiable first principle: **every law, policy, and institution of the state must revolve around the interest, benefit, and welfare of the people of Pakistan.**

We commit to a realistic, pragmatic approach — grounded in Pakistan's actual needs, fundamental rights, culture, defense requirements, security threats, economy, trade, education, health, agriculture, employment, and justice — rather than in imported ideology.

OUR PHILOSOPHY: POLITICAL PRAGMATISM

Every nation carries its own domestic and international challenges, culture, customs, and priorities. No single imported ideology — capitalism, socialism, or communism — fits Pakistan's realities in their pure form. Awam Dost Party rejects rigid ideological imports in favour of **Pragmatism**: a practical, evidence-based, needs-driven approach bound by one unshakeable principle — the interest and welfare of the people of Pakistan, first, without exception.

We recognise that the failure of governance in Pakistan has rarely been a failure of ideas — it has been the repeated prioritisation of personal, family, and patronage interests by those in power over the interest of the people and the state. Awam Dost Party exists to reverse that order.

THE 20 PILLARS OF REFORM

PILLAR 1 REFORMING THE INSTITUTIONS OF THE STATE

1.1 Armed Forces & Civil-Military Coordination: Pakistan has lived under continuous defence pressure since independence, facing an assertive neighbour pursuing hegemonic ambitions, and a complex regional threat environment. Effective defence requires close coordination between civil and military leadership, placing appointments beyond political manipulation.

- Appoint the Chief of Defence Forces strictly by seniority; or, alternatively, through selection by majority vote among the three senior-most Generals in a Core Commanders' Conference.
- Amend laws to remove political discretion from this appointment permanently.
- Ensure civil and military institutions operate in harmony without systemic confrontation.

1.2 An Independent Judiciary: Political involvement in judicial appointments is the largest obstacle to justice.

- One Supreme Court of Pakistan, headed by a Chief Justice appointed strictly by seniority or majority vote of the Full Court among top three senior judges. Same principle applies to High Court Chief Justices.
- Appointments and promotions based on competitive examination and seniority, not political nomination.
- Judiciary shall not have authority to de-seat elected office holders (Prime Minister, President, Chief of Defence Forces).
- Courts must deliver real justice on merit, not dismiss grievances on technicalities.

1.3 The Executive: All executive appointments via competitive examination; promotions strictly on seniority. Robust checks and balances to eliminate corruption.

1.4 Parliament & Election Commission: Free, fair elections free of political interference under Chief Justice supervision; biometric verification for all elections. Parliament's primary duty is legislating for a welfare state.

PILLAR 2 ZERO TOLERANCE FOR CORRUPTION

- Uncompromising zero-tolerance corruption policy across all state institutions.
- Priority cleansing of anti-corruption bodies: NAB, Anti-Corruption Establishment, and FIA.
- Reforming financial lifelines: Customs, Federal Board of Revenue (FBR), and Boards of Revenue.
- Targeted anti-corruption action within the judiciary and police to restore public justice.

PILLAR 3 ECONOMY, TRADE & SELF-RELIANCE

- Balance imports and exports by boosting local production and discouraging luxury imports.
- Develop domestic oil and gas; import regional energy (Iran oil, Azerbaijan gas) to curb cost inflation.
- Boost forex reserves through agriculture, industry, and tourism. Reduce IMF dependency by slashing government luxuries.
- Halt further unnecessary debt borrowing; stabilize via domestic resources and repay existing debt systematically.

Ending the IPP Dilemma:

- Immediate, transparent review, renegotiation, or termination of unfair Independent Power Producer (IPP) agreements that charge for unused capacity.
- End payments for ungenerated capacity; transition strictly to pay-for-consumption.
- Full utilization of solar, hydro, nuclear, and fuel sources with transparent price controls.

PILLAR 4 EMPOWERED LOCAL GOVERNMENT

- Deliver services at citizen doorstep: health units, schools, arbitration councils, and small-cause courts at Union Council level.
- Authorize local revenue generation through market taxation for local development.
- Simultaneous local government elections alongside national/provincial polls with fixed tenure.
- Protect local governments from dismissal or interference by provincial or federal authorities.
- Local dispute-resolution committees to resolve conflicts quickly and reduce court backlogs.

PILLAR 5 A PRAGMATIC FOREIGN POLICY

- Capitalize on ties with China, Saudi Arabia, Turkey, and maintain a constructive mediating role regionally.
- Expand regional energy imports to shield citizens from price spikes.
- Deepen strategic and economic engagement with regional powers while preserving an independent, national interest-driven policy.

PILLAR 6 A GENUINE WELFARE STATE

- Guarantee fundamental rights (fair trial, movement, speech, business, assembly) with narrow restrictions.
- Designated, equipped protest sites in every city while keeping public roads fully operational.
- Insurance-based delivery of health, education, and shelter as core state obligations.
- Strict legal enforcement against adulteration in food, medicine, seeds, and construction material.
- State promotion of marriage, trade, agriculture, sports, and tourism.

PILLAR 7 ENVIRONMENT & FLOOD RESILIENCE

- Emergency construction of dams, water passages, and drainage infrastructure to stop annual flood destruction.
- Nationwide tree-planting campaign integrated with flood control planning.
- Year-round, all-weather road connectivity to Northern Areas for community safety and tourism growth.

PILLAR 8 PROVINCIAL AUTONOMY WITHIN A STRONG FEDERATION

- Genuine provincial autonomy while keeping Defence, Currency, Security, Health, Education, Housing, and Foreign Affairs as core federal mandates.
- Empower provincial legislatures to address localized governance needs.

PILLAR 9 GOOD GOVERNANCE

- Rule of law, police accountability, and digital public service delivery.
- Elimination of nepotism and favoritism across all public service appointments.

PILLAR 10 WOMEN'S SECURITY, DIGNITY & OPPORTUNITY

- Progressive introduction of women-only institutions — schools, colleges, universities, hospitals, transport, police units, and courts — staffed entirely by female personnel.
- Create substantial new employment opportunities for women while ensuring safe movement and freedom from harassment.

PILLAR 11 CONTROLLING INFLATION & THE ENERGY CRISIS

- Renegotiate IPP contracts to eliminate excessive utility tariffs.
- Effective price monitoring systems to stop monopoly-driven price gouging.
- Maximize solar, hydro, nuclear, and thermal power to eliminate load-shedding permanently.

PILLAR 12 NATIONAL SECURITY & COUNTERING TERRORISM

- Full backing for security agencies against external and internal destabilization attempts.
- Prioritize rule of law, education, jobs, health, and development in affected regions (Balochistan & KP) to eliminate deprivation exploited by extremists.

PILLAR 13 POLITICAL TOLERANCE & ENDING POLARISATION

- Establish national consensus on judicial independence, national security, and fair elections across party lines.
- Zero tolerance for political violence or military invitation into political disputes.
- Structured inter-party dialogue on key national issues.

PILLAR 14 DIGITAL, CREDIBLE CENSUS

- 100% digital census to ensure accurate data for equitable distribution of resources, schools, hospitals, and utilities.

PILLAR 15 INTERNAL DEMOCRACY & NEW LEADERSHIP

- Party voting rights reserved for committed members to safeguard foundational principles.
- Active recruitment of honest professionals, workers, peasants, youth, women, and minorities for parliamentary roles.
- Party sponsorship for high-potential candidates lacking financial means. Preference for grassroots workers.

PILLAR 16 AUSTERITY, SIMPLICITY & PRIVATIZATION

- Abolish VIP protocol, free luxury cars, and free utilities for officials, led by the Prime Minister's example.
- Privatize loss-making state-owned enterprises transparently; keep profitable ones under state ownership.

PILLAR 17 RULE OF LAW, EQUALITY & FUNDAMENTAL RIGHTS

- Strict equality before the law regardless of class or power; repeal bad-faith laws and enforce public-interest laws.
- Full protection of religious minority rights, life, property, and freedom of worship.
- Clear, legal frameworks for assembly at designated sites.

PILLAR 18 AGRICULTURAL MODERNISATION

- Modernize agriculture and livestock for food security and export growth.
- Eliminate exploitative middlemen via direct credit, crop insurance, subsidies, and high-quality seed/irrigation support.

PILLAR 19 JUDICIAL & LEGAL REFORM

- Video-link access and online case filing across Tehsil, District, High Court, and Supreme Court levels.
- Merit-based judicial appointments via competitive exams and zero-tolerance for judicial corruption.

PILLAR 20 DEVELOPING SMALL CITIES

- Invest in small cities and rural hubs (education, healthcare, infrastructure) to curb forced urbanization to mega-cities.

OUR PLEDGE

Awam Dost Party stands for one uncompromising idea: **the state of Pakistan exists for its people**, and every institution — the armed forces, the judiciary, the executive, parliament, and local government — must be reformed to serve that single purpose. We ask the people of Pakistan for their trust, and pledge in return a politics of pragmatism, honesty, and welfare — without exception, and without delay.
